About Me

Douglas Misquita is an action-adventure thriller writer from India. His books are fast, entertaining and *visual* - putting readers right into the story. He is hailed as a 'breath of fresh air in the Indian fiction landscape.

He has published three thrillers, an action-short, and a travelogue on Egypt.

The Books

Environmental terrorism, ruthless mercenaries, and a sinister cabal in the latest heart-pounding thriller from Douglas Misquita.

The Apocalypse Trigger

In 1947, a freighter in the Malacca Straits sends out a macabre distress signal. When help arrives all the officers and crew are found dead - with no visible signs of injury.

Present day: An environmental disaster in British Columbia pits Billy Bradford against Future Energy Group and its ruthless head of security, Luc Fortesque. A devastating terror strike on the world's grandest luxury hotel has the globe clamoring for the head of the mastermind, Sebastian Gardner.

But the three men will soon become pawns in a plot that dates back to the end of World War II and the collusion between a powerful, centuries-old cabal and a rogue priest.

Mind-control, ancient mysteries, nanotechnology... and civilization's biggest cover-up come together in this exotic adventure thriller

Secret of the Scribe

A cave-expedition to the remote borders of China and Tibet unearth enigmatic discs that are believed to be of extraterrestrial origin. But their discovery is quickly squashed and erased from official records. When venture capitalist Mark Steinberg launches Linguistics, Inc. and unveils cutting-edge nanotechnology-based communication, an enthralled human race is ready to proclaim the written and spoken word a thing of the past. But unknown to the world, Linguistics is setting the stage for total control.

Leading the scattered resistance movement, Lance Michener wants to shut down the Linguistics network before the damage is total and irreversible.

At the center of the conflict is the hunt for the mythical Book of Thoth — the Book of Wisdom of the Gods; a Book that contains the secrets of the language of all earthly species and languages yet unknown.

And as Linguistics ushers in an era of global mind control, the race is on to prevent The Book from falling into the wrong hands.

The book that took the reviewers by storm and set the standard of visual literary entertainment. Raw, gritty... this is high-octane explosive action at its best!

Haunted

FBI Special Agent Kirk Ingram's life is torn apart when his family is brutally murdered before his eyes. Devastated physically and psychologically, he vows to destroy organized crime in all forms. In the Eastern bloc, a rogue dictator state is stockpiling Citex, a deadly nerve agent... Across the globe, an international trade house funnels Balkan organized crime activities through its business channels and now hatches a plot to distribute Citex to major cities in the world, creating a nexus with terror that threatens to bring the world order to the point of anarchy. And only one man stands in the way of global terror and paranoia. One man seeking redemption and waging a personal battle against the demons of his past.

Short Stories

Know Thy Enemy

An artifact from the Baghdad National Museum could justify the coalition invasion of Iraq. But the artifact is among items looted from the Museum just before the invasion.

CIA Analyst, Emma Burrows enlists the help of Captain William Bradford and a small Joint Task Force 2 team to retrieve the artifact. Unknown to them, a mercenary unit led by Luc Fortesque is also after the stolen artifacts intending to sell them on the black market.

Know Thy Enemy is an action-short that introduces two key characters from the full length thriller novel, The Apocalypse Trigger.

Impressions of Egypt

In November of 2010 I spent a little over a week in Egypt. I was fascinated and humbled by the history and culture of the country. This travelogue isn't a picture-book; there are far better pictures available on the internet and in travel magazines than the thousand plus I clicked with my point-and-shoot.

It is all about the impressions, emotions and implications that no picture can convey, but something that can only be experienced when you bask in the glorious Mediterranean sun in Alexandria, are belittled by the sentinel pyramids at Giza, come to terms with the engineering feat of relocating Abu Simbel, appreciate the historic grandeur of the museum-city of Luxor, or relive the romance of the Nile as you drift past gently-swaying date palms and white-sailed feluccas.

Praise for Douglas Misquita
